

VSA's Breast Care Program

KEY FACTS

FOR OUR PATIENTS:

Mission Statement

To provide a seamless patient experience from initial concern throughout treatment and beyond offering dedicated service, leadership and guidance for all involved in the care of those with breast disease.

Values

- 1. Exceed your expectations through education and expertise while utilizing a prompt, proficient approach to treatment*
- 2. Continuously employ treatment methodologies supported by current research and evidenced base protocols*
- 3. Build relationships with you and your treating physicians employing dedication, time, knowledge and personalization of care*

Offerings

- 1. A competitive, dedicated program offering one-stop shopping for those with breast disease.*
- 2. Dedicated top Breast Surgeons and locations close to you.*
- 3. Dedicated Breast Care Navigator who coordinates testing and treatment, providing guidance, education and emotional support for breast patients.*
- 4. Experienced team who has successfully implemented breast programs based on clinical and quality outcomes.*
- 5. Demonstrated ability to exceed national standards for breast care per the Mastery of Breast Surgery from the American Society of Breast Surgeons utilizing Evidence Based Treatment Protocols (NCCN).*
- 6. Established culture of collaborative, coordinated and detailed approach to patient care among all treating providers,*
